PROFESSIONAL EXPERIENCE

WEB LEDGER SOLUTIONS PVT. LTD. | FULL-STACK DEVELOPER

March 2023 – Present | Bangalore, India

- Designed and developed scalable web applications using Vue.js, Adonis.js, and TypeScript for financial platforms.
- Built advanced custom recurrence scheduling systems with TypeScript and optimized MySQL queries, improving performance and scalability.
- Delivered responsive UI/UX designs using Bootstrap, reusable Vue.js components, and user-centric workflows.
- Collaborated with cross-functional teams to gather requirements, plan sprints, and deploy high-impact features within deadlines.

PROJECTS

DELL.COM CLONE Live Source Code

- Built a comprehensive e-commerce platform allowing users to browse and purchase laptops and accessories.
- Developed key features like product filtering, sorting, and a search functionality for an enhanced user experience.
- Collaborated with a team to deliver the project within 6 days, ensuring responsiveness and functionality.
- Tech Stack:** JavaScript, React.js, Redux, Node.js, Express.js, MongoDB, ChakraUI

CHANDA-KAUDI GAME Live Source Code

- Developed a digital adaptation of a traditional Indian board game during a 2-day hackathon.
- Implemented real-time multiplayer gameplay with live chat functionality using Socket.io.
- Collaborated with teammates to ensure smooth user experience and intuitive gameplay, securing 3rd place.
- Tech Stack:** TypeScript, React.js, Socket.io, Node.js, Express.js, MongoDB, ChakraUI

E-COMMERCE BACKEND Source Code

- Designed and implemented a robust backend using MVC architecture to support user authentication and product management.
- Developed APIs for functionalities like login, signup, filtering, sorting, and order processing.
- Focused on secure implementation with JWT for authentication and Bcrypt for password hashing.
- Tech Stack:** Node.js, Express.js, MongoDB, Mongoose, JWT, Bcrypt

HONORS/AWARDS

2023 Game Development Hackathon (ranked 3 out of 70+ in teams)
2024 Outstanding performance and exceptional dedication
